DATA STORYTELLING & DASHBOARDS

One-page dashboard rubric

Marking guide (100 points)

Question stated in one sentence (15) - would a new joiner understand what this page answers?

Headline metric is the decision, not the data (20) - one number, one comparison.

Chart choices justified (20) - form follows the question; no dual axes, no 3D.

Hierarchy and layout (20) - the eye lands on the answer first, on mobile too.

Commentary leads to an action (25) - says what changed, why, and what to do next.

Automatic deductions

-10 for a truncated bar axis. -15 for a pie chart with more than four slices.

-20 for a dashboard with no stated question anywhere on the page.

demolms demo resource - generated locally, for demonstration only
